Penn State's Manufacturing And Sterilization for COVID-19 (MASC) Initiative was formed to help address needs related to fighting the novel Coronavirus. Comprised of over 350 faculty, staff, students, technicians, nurses, doctors, medical professionals, and alumni, the team works closely with over a dozen companies spread across the Commonwealth. Join us to hear from some of the key members of this extraordinary initiative.

SPEAKERS:

Tim Simpson, Ph.D., Paul Morrow Professor of Engineering Design & Manufacturing, Center for Innovative Manufacturing Processing-3D

Kevin Harter, Associate Dean for Medical Innovation, Penn State College of Medicine

Michael Brignati, Associate General Counsel, Penn State University
