

# LPE Virtual Speaker Series:

## Technology, Policy & Law during COVID-19

Join us via Zoom as we cover topics related to the global pandemic with experts from the College of Engineering, Penn State Law in University Park, and the School of International Affairs. Send questions in advance for the Q&A to Patrick Healey: [pmh5374@psu.edu](mailto:pmh5374@psu.edu).

May 7 | 12:30-1:00 p.m.

*Reflections on sustainable energy transition in the age of COVID-19*

[psu.zoom.us/j/93086230698](https://psu.zoom.us/j/93086230698) Password: 376281

This presentation will summarize key findings from interdisciplinary research that uses engineering models to inform energy policies for addressing local and global sustainability challenges simultaneously. Given the drastic reductions in air pollution and carbon emissions due to COVID-19, potential long-term impacts on climate and the environment will also be discussed through the lens of this research.

### SPEAKER:

Wei Peng, Ph.D., Assistant Professor School of International Affairs and Civil and Environmental Engineering, Penn State University Associate with the Belfer Center for Science and International Affairs at the J.F. Kennedy School of Government, Harvard University, Fellow with the Initiative for Sustainable Energy Policy in the School of Advanced International Studies at Johns Hopkins University.
